HF-CT-693

A review of the active contracts between our office and your Company indicates that in the near future most of the contracts will have been completed or the negotiated rates appearing therein will be subject to negotiation and adjustment. This situation is also apparent in the cases of most of the suppliers under the Project and the workload of our Auditors is ever increasing. Therefore, it has become necessary that a schedule of anticipated final audits and/or analysis of proposed rates for new periods of operations be prepared.

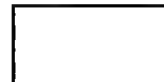

Our records indicated that the contracts listed on the enclosure hereto are subject to final cost audit or are subject periodically to readjustment of rates.

Contractor is requested to furnish a schedule indicating, the date that all deliveries are expected to be completed and anticipated date for submitting final cost statements. On those contracts calling for periodic adjustment of rates, the anticipated date of submitting proposal for revised rates should be indicated. Further, this information is requested to be submitted in order that it will reach the Contracting Officer no later than 10 April 1958. Telephone contact may be used, however it must be confirmed in writing.

Sincerely,

Dan
